

Glen Andersen

Program Director, NCSL Energy,
Environment & Transportation
Program

BIOGRAPHY

Glen Andersen is the director of the National Conference of State Legislatures' Energy Program, which provides state legislators and staff with outreach and policy analysis on a wide range of energy issues. He oversees, develops and coordinates much of the program's outreach efforts, including publications, trainings, workshops and institutes. He also assists state policymakers in their efforts to develop effective and informed policies on energy generation, utility regulation, energy efficiency, greenhouse gas emissions and grid technologies. He has testified before numerous state legislative committees on a variety of energy policy topics and has also authored numerous articles and publications on a variety of topics, including utility regulation, grid modernization, renewable energy, energy planning, carbon emissions reduction policy and energy efficiency. He received a master's degree in environmental health from the University of Michigan and a bachelor's degree from the University of Minnesota.
